

Habitat Gin Lab Experience

Make your own gin

Habitat Gin Lab Experience

A unique 2-hour experience

Embark on a journey to become the master distillers of your own personalized gin in this immersive workshop. Led by Habitat's master distiller, you'll dive into the art of gin crafting, creating a blend that is uniquely yours. Through hands-on engagement with the distillation process, you'll select local botanicals to craft a flavor profile that reflects your tastes and preferences. Along the way, learn about the intricacies of gin-making, the rich history of gin creation, and explore the diverse palette of botanicals available. It's an experience tailored to unleash your creativity and passion for gin.
